

## PLASTIC ID CARD

Dear Healthcare Professional,

The Device Identification Card belongs to the patient. Please follow the instructions below and provide the card to the patient after their implant procedure.

**Instructions:**

- Start by completing the Patient Surgery Information on the front of the Device Identification Card
- Remove the plastic Device Identification Card from this document
- Take the Patient Record Labels from the thermoform lid inside the packaging
- Place the Patient Record Labels from each product on the back of the plastic Device ID Card
  - TOP for product implanted in the LEFT breast
  - BOTTOM for product implanted in the RIGHT breast
- Please provide the Device Identification Card to your patient and advise her to keep it for her records.

*If a Patient Record Label is not available, please use a ballpoint pen to record the product description, serial number, catalog number, and UDI information for each device in the space provided.*
